Netflix Business Intelligence Report

Auspify Technologies | Internship Task 6

Executive Summary

This report analyzes 8790 Netflix titles and examines content distribution, countries, genres and release-year patterns.

Key Performance Indicators

Metric	Value
Total Titles	8,790
Movies	6,126
TV Shows	2,664
Countries	86
Movie Percentage	69.69%

Key Business Findings

• Leading Country: United States (3240 titles)

• Leading Genre: International Movies (2752 titles)

• Peak Release Year: 2018 (1146 titles)

• Movies account for 69.69% of the catalogue.

Business Recommendations

• Evaluate the balance of Movies and TV Shows.

• Study opportunities in leading geographical markets.

• Evaluate popular genres for content planning.

• Use historical release trends for future planning.

Conclusion

This analysis provides an overview of Netflix's content catalogue and identifies patterns that can support data-driven business planning. The findings are based on catalogue data rather than viewer engagement metrics.
